

Colorado CTE Student Organization Recommendations Aligned with Modernized Career Cluster Framework

Below is a listing of the modernized Career Cluster Framework organized by career cluster. Each CTE program is expected to offer an integrated CTE Student Organization (CTSO) as part of the learner leadership development experience. Additional guidance for CTSO expectations can be found in the Administrators' Handbook on www.coloradocte.org. Below is a table of indicating which CTSOs a CTE program in a particular content area or cluster could align with and adopt. Stars indicate the best aligned CTSO for each cluster. Please note that local options may be permitted and that learners participating in multiple CTE programs may also participate in multiple CTSOs. If you have questions or would like to discuss the best fit, please contact the Program Director for that cluster area.
